Narrative:

Owner/Trainer Alison Escobar, DOB: 03/28/1979, RCI ID: 2138969, appeared before the Board of Stewards at Delaware Park for a hearing scheduled for August 11, 2022, in the matter of the horse (Ashiham) trained by Alison Escobar. The Stewards were concerned for the health and welfare of "Ashiham". Owner/Trainer Alison Escobar "Waived" his right to Legal Counsel for this hearing. Stewards considered all evidence and testimony in this matter as follows:

1. Ashiham, trained by Alison Escobar was a Vet observed scratch during prerace examination at Tampa Bay Downs on April 21, 2022, for lameness and heat in the left front flexor tendon, and was placed on the Tampa Bay Downs Vets' List. In testimony, Trainer Escobar stated Ashiham was sore but did not want the horse scratched because he was the morning line favorite.
2. Ashiham worked on June 9, 2022, at Palm Meadows (Florida). Florida Regulatory Veterinarian Dr. Jane Teichner observed the horse lame on his left front on the while the horse was on the track surface after the work.
3. Dr. Teichner contacted Mr. Escobar's practicing Veterinarian Dr. Rendon concerning Ashiham. In a follow up text message from Dr. Rendon to Gulfstream Chief Regulatory Veterinarian Dr. Aponte, Dr. Rendon stated in his medical opinion that Ashiham's injury was career ending.
4. Dr. Teichner reported Ashiham to Gulfstream Chief Regulatory Veterinarian Dr. Aponte, who placed Ashiham on the Gulfstream Park Vet's list as Vet Observed and required an ultra-sound before any workout was scheduled. No ultra-sound was ever taken.
5. On July 12, 2022, Ashiham arrived by van from Palm Meadows (Florida) to Delaware Park. No foal papers were ever turned into the Racing Office as required by the Delaware Thoroughbred Racing Commission Rule 7.3.4.

6. On August 3, 2022, D.T.R.C. Safety Steward Eric Coatrieux requested the DTRC Veterinarian Annie Renzetti inspect the horse Ashiham after Eric observed Ashiham lame on the track with a significant bowed left tendon.
7. On August 3, 2022, Dr. Renzetti observed Ashiham significantly lame on a scale of 4/5 and a bow on the left front flexor tendon that was warm to the touch and sore on palpitation. Dr. Renzetti placed Ashiham on the DTRC Vets' List requiring an immediate diagnostic testing including ultra-sound and stall rest until reevaluated by Commission Veterinarians.
8. Trainer Escobar stated in testimony that Ashiham was not under the care of a practicing Vet and had not been observed at Delaware Park by a Veterinarian prior to the Stewards hearing.

A registered Trainer shall bear primary responsibility for the proper care, health, condition, safety and protection of horses in his charge per D.T.R.C. Rule 7.3.1
